

Aleena Jabeen

SOFTWARE ENGINEER

I'm a Software Engineer who is passionate about creating clean, user-friendly solutions to real-world problems. I enjoy crafting intuitive interfaces that improve the user experience and help bring ideas to life in a simple, effective way. My focus is always on solving problems through thoughtful design and seamless interaction.

EDUCATION

Bachelor of Science, Software Engineering

University of Engineering and Technology, Taxila

09/2022 - Present

3.81

Courses

- Operating Systems
- Data Structures and Algorithm
- DBMS
- OOP

WORK EXPERIENCE

React and Next.js Fellow

Bytewise Limited

06/2024 - 09/2024

Achievements

- Build various projects that allowed me to enhance my skills in React and Next.js.
- Applied my knowledge of front-end development to create functional and responsive user interfaces, ensuring that user experience was always a top priority.
- Implemented server-side rendering (SSR) and static site generation (SSG) with Next.js. This optimized website speed by 40% and enhanced SEO performance.

MERN Intern

Innovaronix

10/2024 - 01/2025

Achievements

- Enhanced UI performance by 40% by optimizing page load speed and implementing dynamic content rendering with React.
- Designed and developed responsive, user-centric web applications using React, improving UI performance and overall user engagement.
- Utilized React to build dynamic and responsive web applications, while integrating Tailwind CSS to create visually appealing, customizable, and consistent user interfaces while enabling faster development cycles.

SKILLS

HTML

CSS

Javascript

Bootstrap

TailwindCSS

ReactJS

NextJS

NodeJS

Framer

MongoDB

Object Oriented Programming

PERSONAL PROJECTS

TrendMart

- I developed TrendMart, an ecommerce website built using HTML, CSS, and JavaScript.
- TrendMart features dynamic product listings, an interactive cart system, and a user-friendly interface optimized for both desktop and mobile.

MedTech

- Developed a website in the medical and technology field, integrated with a chat feature allowing users to ask questions to an AI assistant.
- Used React and Framer.

StreamBank

- Stream Bank is a modern web application built with TypeScript, Tailwind CSS, and Next.js, offering a sleek and responsive user experience.

Devloom

- DevLoom Solution is a tech company specializing in crafting modern, UI-focused web experiences built with React, focusing on a clean, modern UI and smooth user experience.

Furniture Studio

- Developed Furniture Studio an ecommerce website using React, Node, Express and MongoDB featuring both user and admin panels.

VOLUNTEER EXPERIENCE

SoftDesk (09/2024 - Present)

I am working as Senior Executive in Logistics team. I have volunteered in many events i.e. Tech Spectrum 2.0.
