## EDUCATION

### Bachelor of Science, Software Engineering University of Engineering and Technology, Taxila

09/2022 - Present

3.82

#### Courses

- Operating Systems
- Data Structures and Algorithm
- DBMS
- OOP

## WORK EXPERIENCE

### React and Next.js Fellow Bytewise Limited

06/2024 - 09/2024

Remote

#### Achievements

- Build various projects that allowed me to enhance my skills in React and Next.js.
- Applied my knowledge of front-end development to create functional and responsive user interfaces, ensuring that user experience was always a top priority.
- Implemented server-side rendering (SSR) and static site generation (SSG) with Next.js. This optimized website speed by 40% and enhanced SEO performance.

### MERN Intern Innovaronix

10/2024 - 01/2025

Remote

#### Achievements

- Enhanced UI performance by 40% by optimizing page load speed and implementing dynamic content rendering with React.
- Designed and developed responsive, user-centric web applications using React, improving UI performance and overall user engagement.
- Utilized React to build dynamic and responsive web applications, while integrating Tailwind CSS to create visually appealing, customizable, and consistent user interfaces while enabling faster development cycles.

### Web developer Bitech

07/2025 - 08/2025

Bahria Phase 7, Rawalpindi

#### Achievements

- Developed and maintained web applications using HTML, CSS, JavaScript, React, Node.js, Express and MongoDB.
- Maintained knowledge of emerging technologies relevant to web development projects.
- Designed and implemented RESTful APIs to integrate with backend services.

## SKILLS

HTML

CSS

Javascript

Bootstrap

TailwindCSS

ReactJS

NextJS

NodeJS

Framer

MongoDB

Object Oriented Programming

## PERSONAL PROJECTS

### PDF Tool

- A powerful PDF tool website built with MERN stack, featuring converters (PDF→ JPG, Word, OCR, etc.), merge/split, and more. Integrated with Stripe for premium features, making PDF management simple, fast, and secure.

### SmartResume

- Developed a dynamic resume builder platform enabling users to create, customize, and download professional resumes.
- Implemented form-driven inputs for personal details, skills, education, and work experience with real-time preview functionality.
- Built UI using React and Tailwind and back-end support with Node.js, MongoDB, Express.

### MedTech

- Developed a website in the medical and technology field, integrated with a chat feature allowing users to ask questions to an AI assistant.
- Used React, Framer for animations, and Gemini API for Chat assistant feature.

### StreamBank

- Stream Bank is a modern web application built with TypeScript, Tailwind CSS, and Next.js, offering a sleek and responsive user experience.
- Used gsap for animations.

### WebControl CMS

- Designed and developed a dynamic company website with an integrated admin panel for centralized content and data management using mongoDB, express, Node.js for backend and React and Tailwind CSS for Frontend..

### Furniture Studio

- Developed Furniture Studio an ecommerce website using React, Node, Express and MongoDB featuring both user and admin panels.

## VOLUNTEER EXPERIENCE

### SoftDesk (09/2024 - 05/2025)

I worked as a Senior Executive in the Alumni team. I have volunteered in many events, such as Tech Spectrum 2.0. I learned communication skills and how to connect with people.
