AIZA NOOR
WEB DEVELOPER

| 03185049506 | aizanoor0216@gmail.com | Rawalpindi,Pakistan |

| **Objective** | I'm a Web Developer who is passionate about creating clean, user-friendly solutions to real-world problems. I enjoy crafting intuitive interfaces that improve the user experience and help bring ideas to life in a simple, effective way. My focus is always on solving problems through thoughtful design and seamless interaction. |

| **Education** | **Capital University of Science and Technology,Islamabad** |

BS-Computer Science

Key Skills	HTML	React
	CSS	Object Oriented Programming
	JS	

| **VOLUNTEERING EXPERIENCE** | Behbud Association is a non-profit organization dedicated to social welfare, education, and community development. As a volunteer, you'll have the opportunity to make a meaningful impact by supporting educational programs for underprivileged children, participating in community outreach initiatives, assisting with event planning and execution, contributing to fundraising efforts, and helping with administrative tasks. By volunteering with Behbud Association, you'll play a vital role in supporting their mission and positively impacting the community. |

Email Management System (MERN Stack Project)

Developed a full-stack email management system using MongoDB, Express.js, React.js, and Node.js. The application includes secure JWT-based authentication for user login/signup, dynamic email CRUD operations, and image upload functionality via Multer. Designed for efficient user interaction and seamless backend integration, with a structured folder architecture and API-first approach.
